Way to forward

- Land use and ecological map (with biodiversity registration and documentation)
- Reform of organization set up (Organization and management survey completed)
- Reform in the policy and prevailing laws
- Creation of financial capital
 - Increase in royalty rate
 - Capitalize REDD and Payment for Environmental Services
 - Fine new donors and projects
 - Collaborate with governmental and non-governmental partners
- Capacity building
 - Park staffs
 - Local communities

Institutional Mechanism

The income of community forest is largely based on eco-tourism and fund provided by the BZMC

In the recent years, the trend of BZCF formation seems similar to normal community forestry user group
